Spread the Word by Twila Brown, Principal

I have to say that I absolutely LOVE coming to Learning Tree every day! This fine school has some of the sweetest, most well behaved, hard-working students ever. There is a magnificent mountain of evidence that the staff are here because they truly care about Christ and His children. To add even more excellence to this educational experience, the community parents and church families far exceed the expectations of what it means to be supportive of quality Christian education. God is most certainly growing Learning Tree students to be strongly planted in Him. This message comes to you not from a biased perspective, but from a heart overflowing with gratitude to God and with deep joy that He has entrusted me with the humble honor of serving as Principal of Learning Tree. If you are looking for a school with a caring family feel and high quality Christian education, Learning Tree is where your children need to grow their roots! Spread the Word to your friends and families!

Science Town with Mrs. Brown, *by Mrs. Brown, 5-8 Science Teacher & Principal*

Learning about digestion and our body's filtering system has never been so fun, or messy! Our bodies have certainly been designed with God's very creative and intelligent mind!

Let's take care of ourselves so we can be strong for the Lord. To keep our systems

healthy, drink lots of water, get plenty of rest, cut out so much salt and sugar, get fresh air and exercise every day, eat healthy food, and trust God.
